Dr Ricardo Hamilton is an accomplished Colorectal, General & Trauma surgeon practising in Southwest Sydney. He also serves as a lecturer at the University of Western Sydney and the University of New South Wales.

With a diverse training background that includes Jamaica, The Bahamas, and South Africa, Dr Hamilton made Australia his home in 2010. Since then, he has pursued further specialisation, honing his expertise at prestigious institutions such as Liverpool Hospital, Campbelltown Hospital, Mater Brisbane Hospital, Brisbane Metro-North Colorectal Group at RBWH, and the Royal Prince Alfred Hospital in Sydney.

Dr Hamilton's primary areas of specialisation include Colorectal cancer, Benign & Inflammatory bowel disease, Anorectal conditions, Bowel cancer screening, and emergency general surgery. He is deeply committed to the education and development of future surgeons, actively engaging as a lecturer at esteemed universities. This ensures that Dr Hamilton remains at the forefront of the latest surgical techniques and advancements in his field, which he incorporates into his practice to provide optimal outcomes for his patients. Renowned for his excellence in surgical care, Dr Hamilton delivers cutting-edge, personalised treatment to his patients.

His dedication to his profession and his genuine concern for patient well-being makes him a trusted professional in the field. Areas of special interest Colorectal, General and Trauma surgery.
